

## Clinical Pharmacist Vacancies

Clinix Health Group is a private hospital group consisting of 8 hospitals, predominantly in Gauteng and North-West province. We are seeking dedicated and motivated Clinical Pharmacists to be responsible for the leading, managing, coordination, and monitoring of clinical pharmacy services and driving pharmaceutical improvement within each of these hospitals.

### Job Summary

- Ensure effective customer focused, professional clinical pharmacy services through daily ward rounds
- Improve overall outcomes by promoting rational drug use, monitoring and optimising individual patient drug therapy and providing patient education
- Advanced antimicrobial stewardship
- Enhance professional cooperative collaboration with nursing, infection prevention practitioners, pharmacists, doctors, microbiologists and other key functional stakeholders
- Enhance patient medication safety management and manage the risks

### Qualifications

- BPharm Degree
- Postgraduate degree in Clinical Pharmacy
- Active registration with the South African Pharmacy Council
- Good communication skills
- Experience in clinical pharmacy including antimicrobial stewardship and rational medicine use
